

Protective Sneeze Screens

Toughened glass and obscure polycarbonate screens for supporting business continuity

Protective Sneeze Screens

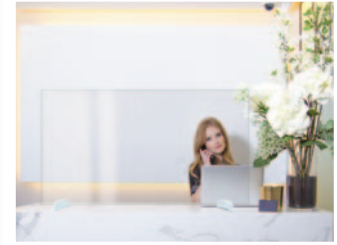

At the forefront of UK glass production since 1875, and as one of the leading suppliers of bathroom products in the UK, Nicholls & Clarke have introduced a series of top quality glass and PETG / polycarbonate screens to help keep employees and customers safe. Our Protective Glass Sneeze Screens manufactured in Britain using 6-8mm toughened safety glass and finished with polished edges. Alternatively, opt for our brushed silver frame with either 4mm clear glass or unbreakable PETG polycarbonate screens used by N&C for decades in the manufacture of carer screens for the healthcare market where users are more vulnerable to falls.

When your response to safety and reputation are critical, why settle for any less than the best solution to safeguard your people?

- Maintain your professional image
- Provides high transparency (glass)
- Does not fade or discolour over time
- More hygienic option
- Easy to keep clean
- Chemical resistant
- Scratch resistant
- Recyclable options
- British Manufactured
- Bespoke options available
- Supports business continuity during Covid-19
- Competitively priced
- Delivered nationwide
- Meets BS/EN Standards
- Quality workmanship

N&C manufactured obscure PETG polycarbonate screens

Sneeze Screen Support Bracket Options

Corian White Solid Surface Material

Perfect for desk mounting, this ultra white glacial corian solid surface material is suitable for non permanent fixtures. The self adhesive underside makes this option the quickest to install.

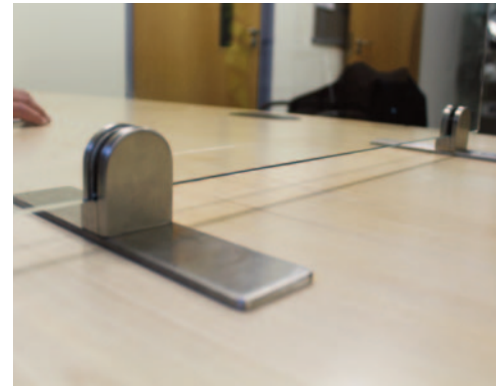

Stainless Steel Bracket & Clamp

For more permanent fixtures, the clamp system allows for a strong more permanent fixing. The stainless steel finish offers a durable, professional appearance. Perfect for table top installation of varying thicknesses. These brackets are supplied complete with rubber washers for either glass or PETG application.

Stainless Steel Desktop/Floor Mounted Feet

Whether you opt for our desktop (200mm) or floor standing (380mm) option, this architectural stainless steel support offers a combination of a professional finish, versatility (as it is moveable) and durability. These brackets are supplied complete with rubber washers for either glass or PETG application.
