

Starlike evo Resin Cleaner

Description

Nicobond Starlike evo Resin Cleaner is a concentrated liquid detergent with an alkaline pH especially formulated for the cleaning and effective removal of residues or film of epoxy resin mortars from tiled surfaces.

Uses

Nicobond Starlike evo Resin Cleaner may be used for cleaning all types of tiles including ceramic, porcelain, mosaics and natural stone. It can also be used as a cleaner to refresh old and tired looking installations.

Application

Once the Nicobond Starlike Extreme Performance Grout is sufficiently hard, usually allow 24 hours at 20°C, the Nicobond Starlike evo Resin Cleaner can then be applied. To remove epoxy residues, apply the undiluted cleaner onto the tiled surface and allow to remain for 10 - 15 minutes. Then clean the surface using the white Emulsifying pad. After cleaning remove the Resin Cleaner with a sponge and then rinse thoroughly with clean water. Change the rinse water frequently. Finally dry with a clean cloth. For routine cleaning the Nicobond Starlike evo Resin Cleaner can be diluted from 1:10 to 3 : 10 in water and then repeat the steps as above.

Features

Suitable for all types of tiles including polished natural stone
 Easy to apply
 For internal and external applications
 Suitable for walls and floors

Notes

Before use protect doors, windows, rubber seals, furniture, taps, metallic or PVC profiles and other fittings that could be affected by direct contact with detergents.
