

Starlike evo Resin Remover

Description

Nicobond Starlike evo Resin Remover is a highly viscous and concentrated liquid detergent with an alkaline pH especially formulated for the effective cleaning and removal of stubborn and old residues of epoxy resin mortars from tiled surfaces.

Uses

Nicobond Starlike evo Resin Remover may be used for cleaning all types of tiles including ceramic, porcelain, mosaics and natural stone. It can also be used to remove graffiti, spray paints and ink as well as being able to break down silicone caulk residue.

Application

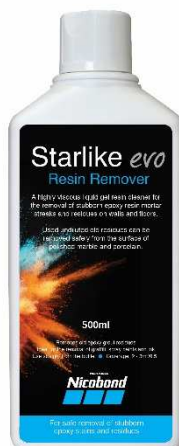

To remove old epoxy residues, apply the undiluted cleaner directly onto the tiled surface using a swab or brush and let it stand for 15 – 30 minutes depending on the hardness of the residues to be removed. With a scrubbing action work the liquid well into the surface using a Nicobond Emulsifying Pad (White) or for large surfaces use a single-brush floor machine fitted with a white pad. Remove the emulsified liquid with a sponge or a wet vacuum cleaner. Finally rinse thoroughly with clean water, changing the water frequently and dry with a towel or clean cloth. Do not allow the rinsing water to just evaporate as streaks could form on the surface. If epoxy residues persist, repeat the application.

Features

Suitable for all types of tiles including polished natural stone
 Easy to apply
 Also removes graffiti and spray paint.
 For internal and external applications
 Suitable for walls and floors

Notes

Before use protect doors, windows, rubber seals, furniture, taps, metallic or PVC profiles and other fittings that could be affected by direct contact with detergents.
 Do not use the product for applications not listed on this technical specification. Always read the Technical and Safety data sheet before use.

Application Data

Colour	White
Smell	Characteristic
pH	12 ± 0.5
Specific gravity	1120 ± 10gm/litre
Installation Temperature	+5°C to +35°C
Coverage	2 – 3m ² / 0.5 litre
Flammability	No.
Application time	Approx 15 – 30 minutes
Packaging	0.5 Litre Bottle (Boxes of 12)

Shelf Life /Storage

Store out of direct sunlight. Protect from frost.
 Nicobond Starlike evo Resin Remover has a storage life not less than 24 months if stored in original unopened containers.

Health & Safety Advice

PRECAUTIONS

The product may cause irritation, always wear gloves and eye/face protection as necessary. Observe personal hygiene, particularly washing the hands after work has been completed or at any interruption whilst work is in progress. In case of accidents seek medical advice. Keep away from children.
 In case of accidental spills, collect the product with an absorbent material such as paper, sawdust, vermiculite etc and dispose of in a suitable container.

Although the information contained in this data sheet is accurate to the best of our experience, it is intended only as a guide. Each case must be subject to preliminary practical tests by the user who is responsible for the final result

The relevant Material Safety Data Sheet can be obtained from www.ncnicobond.com or directly from N & C Building Products Ltd at the address below.
