## Product Data Sheet

September 2020

# Super Grout Pro Cleaner

### Description

A high viscosity ready to use, eco-friendly and ecological liquid detergent designed for the safe and effective removal of Nicobond Super Grout Pro residues from the surface of tiles.

Nicobond Super Grout Pro has been formulated using biodegradable materials with a neutral pH making it very safe for the consumer or tile fixer to use and environmentally friendly.

### Uses

Supplied with a convenient spray applicator, it is fast acting on polyurethane residues which may be visible on the surface of porcelain and ceramic tiles. It can also be used as a degreaser for ceramic surfaces in kitchen areas.

Nicobond Super Grout Pro Cleaner may be used for cleaning all types of tiles including ceramic, porcelain, mosaics and natural stone.

### Application

Once the Nicobond Super Grout Pro Cleaner is sufficiently hard, typically 24 hours at 20°C, the Nicobond Super Grout Pro Cleaner can then be applied. To remove any Super Grout Pro residues, apply the undiluted cleaner onto the tiled surface and allow to remain for a few minutes. Then clean the surface using the white Emulsifying pad. After cleaning remove the Super Grout Pro Cleaner with a sponge and then rinse thoroughly with clean water. Change the rinse water frequently. Finally dry with a clean cloth. It is recommended to apply Nicobond Super Grout Pro Cleaner in limited areas approx. 1- 2m<sup>2</sup> so that it does not remain in contact with the grout for more than 5 – 7 minutes.

### Features

Suitable for all types of tiles.  
Easy to apply  
For internal and external applications  
High viscosity perfect for wall applications  
Suitable for walls and floors

### Application Data

|                          |                                   |
|--------------------------|-----------------------------------|
| Colour                   | Clear                             |
| Smell                    | Characteristic                    |
| pH (5% in water)         | 6.5 – 7.5                         |
| Specific weight          | 995 ± 10gm/litre                  |
| Installation Temperature | +5°C to +35°C                     |
| Coverage                 | 10m <sup>2</sup> per 750ml bottle |
| Flammability             | No.                               |
| Packaging                | 750ml Bottle (Boxes of 12)        |

### Notes
