Product Data Sheet

One Coat Temporary Protection Sealer

Description

Nicobond One Coat Temporary Protection Sealer is a true one coat protection sealer for internal use on porcelain & natural stone wall and floor tiles while grouting. This simple one coat formulation is easy to use, efficient and washes off without a fuss.

Nicobond One Coat Temporary Protection Sealer prevents grout from adhering to the tile surface and staining from grout pigments.

Features

Quick dry one coat formula
Protects outdoor porcelain & natural stone tiles while grouting
Prevents grout from sticking to the tile face
Prevents colour pigments from staining the tile
Apply prior to grouting
Washes off easily during grout washing off process

Instructions for use

IMPORTANT: Ensure tile surfaces are clean, dry and free from contamination. Do not use in temperatures below 5°C or in damp conditions. Use before grouting begins.

1. Apply well onto the area to be treated with a clean, pre-wetted, colour-fast lint free cloth. Ensure complete coverage, but avoid application inside the grout joint.
2. Allow to dry (touch dry – approx. 30 minutes).
3. Apply grout as instructed.
4. On completion of grouting and after grout has set, remove the sealer by washing the surface with clean water.

Application Data	
Unit size:	1 litre capped bottle
Mixing ratio:	Not required
Approximate coverage:	20 – 30m ²
Consistency of mix:	Clear liquid
Product code:	N2540714

Tools required

Lint free cloth, sponge, sponge float.

Shelf life

2 years unopened.

Storage

This product must be stored clear of the ground, under dry conditions, out of direct sunlight. Protect from frost.
