

N&C

Cubicle Collections

Nicholls & Clarke

— Est 1875 —

Our broad collection of cubicles have been designed to meet the needs of the different environmental conditions across industries in terms of durability, performance, functionality, compliance and aesthetics. From highly durable, anti vandal options suited for public washrooms, to aesthetically pleasing options to create a sense of security for school environments.

We offer over 84 on-trend colours to choose from, enabling creative flexibility and assisting with specific design or branding requirements. Our fittings and extrusions are designed to allow fast and easy installation to help overcome any issues with tolerance and flexibility on site to avoid any delays.

N&C offer unrivalled specialist expertise in the washroom market with availability and lead times that allow for project deadlines to be met. We engage in the project and can get a N&C representative on site to assist in producing working drawings according to the project requirements. We also produce detailed CAD drawings to assist with on-site installation.

Our pilasters and panels are created in either high pressure laminate, compact solid grade laminate or melamine faced chipboard.

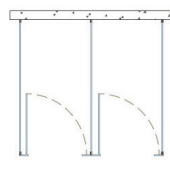

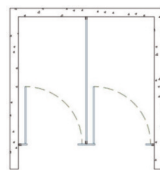

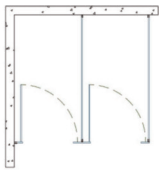

How to Order

1. Identify your cubicle arrangement

Corner

Between Walls

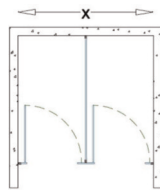

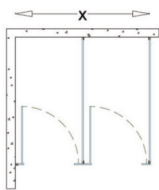

Island (rear wall only)

2. Advise how many cubicles are in each arrangement

* Example - Class 3 boys = 2 cubicles between walls

3. Provide overall width of your cubicle arrangements

4. Select door height option (if available)

* Infant doors - Shaped 1100mm*

* Junior doors - 3 Quarter High 1500mm*

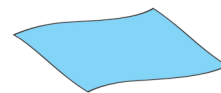

* Standard doors - Full Height 1800mm*

*excludes 150mm adjustable foot

5. Advise if you require an outward opening door

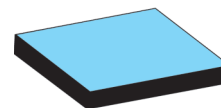

6. Select door colour - Multicoloured or single coloured

Material Key

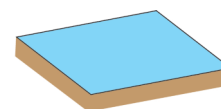

High Pressure Laminates

Our high pressure laminates are perfect for environments that require low maintenance, exceptional durability and versatility with a high resistance against abrasion, impact and general wear. Cubicles that are made from high pressure laminate are impervious to water and maintain its integrity within the most demanding environments. Allowing for creative flexibility, the desired aesthetics can be achieved such as wood effect to create an executive, sophisticated appearance in offices.

Compact Solid Grade Laminate

Tough, wet environments are met with our compact solid grade laminate range, which consists of self supporting decorative panels on both sides and is ideal for use with washroom cubicles, locker doors, wall panels and furniture as it is particularly suited to high humidity environments. Compact Solid Grade is perfect for high traffic, high impact environments due to its hard wearing structural stability, requiring no substrate support (within a 12mm thickness).

Melamine Faced Chipboard

As the most cost effective solution, our range of melamine faced chipboard is a self supporting, moisture resistant board with two decorative panels on the outer sides.

Budget (MFC)

Designed specifically to be size adjustable on site the Budget range is competitively priced and available in packs for fast delivery. Using Nylon hardware all cut edges are hidden within full length channels. Suitable for any standard WC or Disabled cubicle.

Solid Surface Wash Trough

A modern way to complement your washroom with our solid surface wash troughs. Cubicle Systems manufactures a wide range of bespoke wash troughs, each made unique with various choices regarding wastes, taps and finishes.

Standard Wash troughs

Flat Deck – Exposed Waste

Sloping Deck – Hidden Waste

Wash Trough Specification:

Flat Deck – Exposed Waste

12mm thick acrylic Wash troughs available in standard depth of 400mm (bespoke depth available upon request), includes 200mm deep down-stand with MDF substrate frame. Trough can be positioned onto Cubicle System's vanity under frame with access panels.

Suitable for deck or wall mounted taps or combination mirror units.

1no Exposed waste – deck either slopes left or right. Extra wastes available upon request

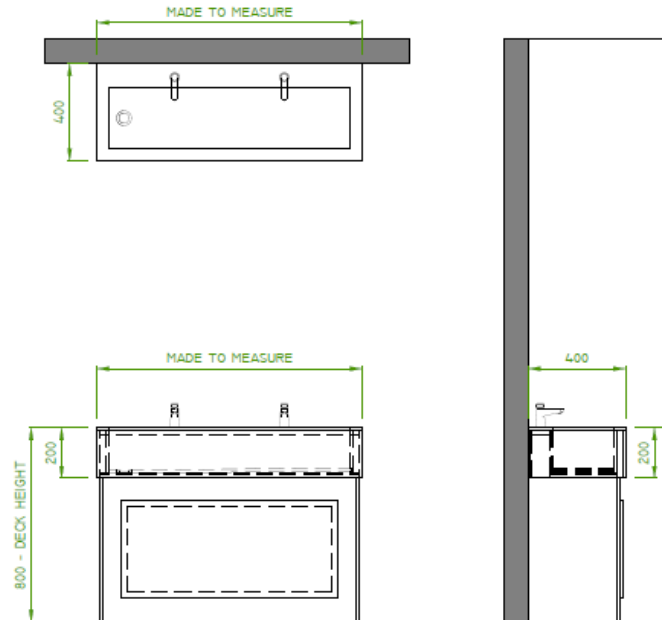

Available in one-piece sizes of 600mm, 1200mm, 1800mm, 2400mm or 3000mm. Bespoke sizes available upon request.

Sizes over 3000mm long will be manufactured as 2 units.

Extras: wastes, loose upstand, LED light strip

Standard Colour: Pure White Only

(More colour options available from Corian or Tristone upon request).

Sloping Deck – Hidden Waste

12mm thick acrylic Wash troughs available in standard depth of 550mm (bespoke depth available upon request), includes 150mm deep down-stand with MDF substrate frame. Trough to be positioned onto Cubicle System's vanity under frame with access panels

Suitable for deck or wall mounted taps or combination mirror units.

Hidden waste – deck sloped back

Coved or loose upstand available upon request.

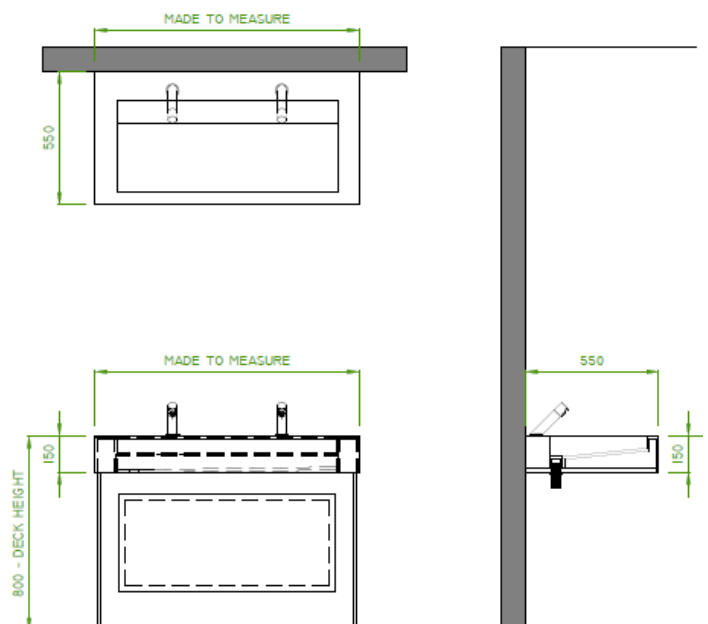

Available in one-piece sizes of 600mm, 1200mm, 1800mm, 2400mm or 3000mm. Bespoke sizes available upon request.

Sizes over 3000mm long will be manufactured as 2 units.

Extras: wastes, loose upstand, LED light strip

Colour: Pure White Only

(More colour options available from Corian or Tristone upon request).
