

N&C

Showering *Collection*

The Nicholls & Clarke Group is a business dedicated to the manufacture and supply of the finest building materials. Founded in 1875 in London, we have grown from servicing the capitals' building trades to becoming the largest privately owned national manufacturer and distributor of fine quality building products.

Quality manufacturing is at the core of our business and comes as standard. We own state of the art manufacturing facilities based across the UK and Central Europe. This gives us the broadest manufacturing capability available, allowing us to offer an extensive portfolio of product, more specialised than that of any of our competitors.

Our distribution network is supported with our private fleet of over 110 commercial vehicles. This gives us full logistical control from the point of manufacture through to delivery to site. We offer a nationwide delivery service, be that to site, home or commercial address.

Contents

Our Showering Collection has been designed specifically to deliver quality products at competitive prices. Our modern, sleek designs adhere to the latest trends, tastes and requirements of our customers. Our exceptional product warranties on our bathroom products reflect the stringent test procedures our products must pass prior to being included within our brand. We continuously deliver quality products, as standard, to all of our customers.

All shower enclosures are manufactured in Britain, they are designed and built to last.

For true peace of mind all enclosures and wetroom panels are covered by a Lifetime Guarantee.

Brace bar and pivoting deflector panel

Adjustable panel foot for fixed panel

Deflector Panel - Fixed or Pivoting

Deflector panels can be added to your wetroom panel to increase the water integrity for your wetroom. The Pivoting Panel rotates through 180° allowing you to fold it inwards for wider entry access and it can be positioned in-line to add more length to the wetroom panel, adding increased water integrity. The Fixed Panel is placed at the end of the wetroom panel and is static to help guide the water back into the showering area, to help keep the outside of your wetroom area drier. An adjustable panel foot is also supplied with the Fixed Panel.

The panel foot adjusts from 4mm to 29mm to accommodate high and low level trays, it is chromed brass with adjustable insert.

Brace Bars

A number of different styles of bracing bars are available. We offer all configurations that may be required and they can be cut and trimmed to the size required during installation to allow maximum flexibility and use of space. Bracing kits are used to provide added support for the glass and ensure that it is securely fitted in place.

Our bracing bars range from Ceiling Bracing Kits to 45° Angle Bracing Kits and from Curved Bracing Kits to Floor to Ceiling Bracing Kits. We have something to suit the enclosure style, your bathroom area and your preference, to present the highest level of stability.

Anti-Slip Low Profile

The UK's strongest shower decks with industry leading, independent test results

Our shower decks have been manufactured to a high quality and independently tested and have been proven to be the strongest shower decks in the UK market. Our decks help to achieve level access showering for a seamless transition into the shower area.

Choose a suitable shower deck based on the environment and whether the floor covering will be tiled or vinyl installation for a totally water tight solution. **Suitable for both concrete and timber floor installations.**

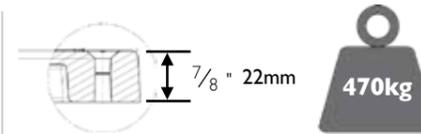

N&C Premier Infinity Shower Deck

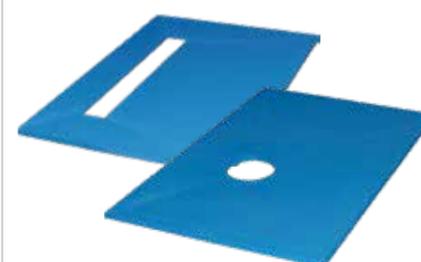

Our N&C Premier Infinity Deck is a revolutionary wet room floor former with a unique slider drain system for creating an easy to install, visually appealing level access wet floor. Designed with the installer and end user in mind.

N&C Premier Shower Deck

The N&C Premier Shower Deck is ideal for creating a level access wet floor area with ease. With a self supporting structure, Premier Shower Deck can be placed directly onto underfloor joists without the need for additional support. The built-in falls in the deck encourage the swift removal of waste water.

N&C Aqua Floor Shower Deck

The strongest SMC deck with a unique ribbed underside, perfect for vinyl installations.

The N&C Aqua-Floor shower deck is a high strength wet room shower deck that has been compression moulded using a high glass content SMC formulation.

Consumer Guide

IMPORTANT PRODUCT DETAILS

- Enclosures and Screens carry a manufacturer's guarantee if products are installed according to the installation instructions - see guarantee criteria below.
- Any guarantee variations are indicated separately.
- All guarantee forms supplied with installation instructions must be completed and returned within 60 days to validate the lifetime guarantee otherwise only a statutory 12 month guarantee will apply.
- All Shower Screens and Enclosures are manufactured using toughened safety glass which complies to BSEN12150.
- It is important to note, that the glass must not be mounted or 'pinched' in such a way that would cause a stress point to develop in the glass. In addition, it must not be subjected to any sharp impact or severe temperature fluctuation which may also cause a stress point to develop in the glass.
- Toughened glass is physically and thermally significantly stronger than standard glass. However a significant impact (or stress as outlined above) can cause Toughened glass to break. In the event of breakage, toughened glass will break safely into small fragments in line with all relevant Standards.
- All aluminium profiles are extruded in accordance with BS6063 and BS1474.
- All heights quoted for Enclosures and Screens are from the top of the Shower Tray.
- All fixings are hidden on products.
- All fixings and pivot pins are manufactured from stainless steel - this adds great strength and durability to products.
- All seals and gaskets on products are manufactured from colourless PVC.
- The design rights of these products are owned and all rights reserved.
- All Shower Screens and Enclosures are tested in accordance with BSEN14428 - Shower Enclosures, functional requirements and test methods.

Truelife Lifetime Guarantee

All Shower Enclosures and Bath Screens are guaranteed against faulty materials or manufacture for LIFE, provided they have been installed, used and maintained in accordance with our instructions. All product guarantees must be completed and returned within 60 days of purchase to validate the relevant guarantee. Failure to meet this deadline will result in a statutory 1 year guarantee on all products.

Should a claim arise, Customer Relations will investigate the issue. As part of this investigation we request that the following conditions be satisfied:

1. Proof of purchase at the time of the claim.
2. The guarantee applies to the original purchaser only and is non transferable.
3. The product has been fitted / installed in accordance with our fixing instructions, local bylaws and general good plumbing practice
4. The product has been maintained and cared for in accordance with our instructions (including regular and appropriate cleaning).

If in our opinion the product has been modified, misused, neglected, wilfully or accidentally damaged, we can accept no responsibility for failure.

Our representatives must be given the opportunity to inspect the product in the installed condition. Call outs may be chargeable depending upon circumstances.

Should any products included in the Lifetime guarantee be used for Commercial use i.e. leisure clubs, schools, hospitals, student accommodation, hotels or residential homes, only a 5 year guarantee will be applicable.

If in our opinion the product fails due to faulty materials or manufacture and that the conditions above have been met we will arrange for a specialist Technical Sales Representative to repair or replace that item at our option.

We believe in continuous improvement. If in our opinion the product has failed under the terms of the Guarantee and a replacement is offered but identical goods are no longer available, we will endeavour to replace it with our nearest equivalent product. For countries outside of the UK and Republic of Ireland, where a product has failed due to faulty materials or manufacture, a replacement product or product part will be offered only.

Should we carry out work as a result of a claim but subsequently it is revealed that the product has been abused or improperly installed, we reserve the right to charge the customer for the expense incurred.

The liability is limited to the product supplied by us and does not extend to consequential loss or damage arising from the defective product.

This Guarantee, which is effective for products purchased after February 1st 2006, states our entire liability and is offered to customers acquiring our products as consumers, not in the course of trade or business. Ex displays or products reinstalled from their original position are not covered under this guarantee.

Non glass or metallic parts (e.g. seals) are subject to normal wear and tear through usage and are therefore covered on all products for 1 year from installation.

This Guarantee does not affect your statutory rights. This Guarantee is wholly applicable in the UK and Republic of Ireland - export conditions as indicated.
